Summary Care Record and Care.Data Overview

(please read the two mentioned websites for further information)

There are 2 projects running side by side by the Government with regards to your patient data.

There is the Summary Care Record (SCR) and the Care.data (HSCIC)

You have a choice on whether you want to share your data

The SCR is to be used in circumstances where another health care professional needs to access some of your medical records. They can view your allergies/adverse reactions, current medication and active problems.

For more information please see: <http://www.nhscarerecords.nhs.uk>

The care.data (HSCIC) is more of a research project.

For more information please see:

<http://www.nhs.uk/NHSEngland/thenhs/records/healthrecords/Pages/care-data.aspx>

I _____ Date of Birth _____

Do not wish my data to be shared as part of the SCR Project

Do not wish my data to be shared as part of the care.data project

Signed _____
